

Martineau Recruiting Technology - Who We Are

With its beginnings in 1980, Martineau Recruiting Technology is the result of two business partners, each with a successful track record as Executive Recruiters in the Information Technology arena, starting their own firm with a mission. That mission was to create a unique Executive Recruiting Firm that would partner fully with both their client companies and candidates to focus on the mutual success of all.

Our People: Leaders in the Recruiting Industry with a proven track record, the firm's founding partners have been in business together for over 28 years. Since its inception in 2000, MRT has grown organically, adding talented individuals who possess the unique background and experience that provides an increase in their offerings. Martineau Recruiting Technology's current partners have more than 50 years of experience in the I.T. Search and Placement industry.

Our Process: At the heart of any successful organization is a well-defined and repeatable process that places the focus on the right things. *MRT's 4 Phase Referral Based Recruiting Process* is that proven repeatable process. Good people utilizing a great process produce exceptional results.

Our Services:

Permanent Placement service includes: *Retained and Contingency Search leveraging Referral Based Recruiting™.* We provide in-depth candidate qualifying, assessment and reference checking. These services are conducted on a contingency or retained basis, depending upon client's needs. We are true specialists focused in the search and placement process.

Our Staff Augmentation Services *are available through Consulting, Contract as well as Contract to Permanent transitions.* This combination of offerings makes it economically feasible for our clients to access our full complement of recruiting and screening services whether their need is fulltime and permanent or simply short-term and project based.

With clients located throughout the Eastern United States, they represent leaders in the Financial Services, Insurance, Manufacturing, Retail, Software and Consulting industries. Our core search competencies span Executive Leadership, Architecture, Application Development, Business Intelligence and Infrastructure domains.

We truly believe that Martineau Recruiting Technology is your Partner in Professional Search.
